

# L SERIES

## HEAVY DUTY CONVENTIONAL TAIL LIFTS

Perfection in every detail

- **Less weight - more payload**
- **Easy & quick installation**
- **Long life - low maintenance**

AHT's L series of tail lifts consists of a superior and cost effective two cylinder system. All equipments are made of the same design and most parts are interchangeable from aluminum to steel. This allows to build up a product that costs less (using steel) and still have less weight (using aluminum).

All models are completely assembled, adjusted and tested before leaving the factory. Mounting brackets that simply slide into place enable effortless installation without the need for any welding.

**DEFINITELY FUTURE-ORIENTED TAIL LIFT**

# Model Specifications:

| Model             | Mechanism | Platform | Capacity kg | Load centre mm | Platform Size W x L mm | Weight kg |
|-------------------|-----------|----------|-------------|----------------|------------------------|-----------|
| L-500HST/AL       | Steel     | Aluminum | 500         | 600            | 900 x 1600             | 145       |
| L-1000ST/ST       | Steel     | Steel    | 1000        | 600            | 2440 x 2000            | 565       |
| L-1000ST/AL       | Steel     | Aluminum | 1000        | 600            | 2440 x 1700            | 420       |
| L-1000AL/AL       | Aluminum  | Aluminum | 1000        | 600            | 2440 x 1700            | 318       |
| L-1500ST-SS       | Steel     | Steel    | 1500        | 1200           | 2440 x 2200            | 597       |
| L-1500ST/AL       | Steel     | Aluminum | 1500        | 600            | 2440 x 2200            | 441       |
| L-1500AL/AL       | Aluminum  | Aluminum | 1500        | 600            | 2440 x 2200            | 343       |
| L-2000ST-SS       | Steel     | Steel    | 2000        | 1100           | 2440 x 2200            | 715       |
| L-2000ST-SS-B     | Steel     | Steel    | 2000        | 1100           | 2440 x 2350            | 738       |
| L-2000ST/AL-SS-11 | Steel     | Aluminum | 2000        | 1100           | 2440 x 2200            | 532       |
| L-2000ST/AL-SS    | Steel     | Aluminum | 2000        | 800            | 2440 x 2350            | 545       |
| L-2500ST-SS       | Steel     | Steel    | 2500        | 1100           | 2440 x 2350            | 760       |
| L-2500ST/AL-SS    | Steel     | Aluminum | 2500        | 800            | 2440 x 2350            | 535       |

## Standard Inclusions

- Three bumper mounts
- Two cables for direct +/- powerpack connection to battery

Hand control with pull out protection

Mechanical auto levelling at the floor

Roll Stops

## Optional

- Added platform length
- 3-Button foot control
- Flashing lights
- Additional hand control
- Electrical Hose Burst Valve

## MHW®-Powerpack

Platform lift is achieved by the compact and fully integrated MHW powerpack in a splash proof aluminum box. Its two-button remote control, for Up and Down operation, is equipped with a cord pull-out protector to prevent electrical shorts and other damage. Control switch prevents from unauthorized operating of the tail lift.

## Cylinders

AHT's all-aluminium cylinders are more powerful and weigh less. They have been tested to 1.000,000 cycles without changing seals and are noiseless in operation at all temperature ranges. Their ceramic-coated pistons, and high resistance to salt water and other corrosive substances, ensure a long life span. With mechanical or electrical hose burst valve.

## Safety First

Cylinders are equipped with mechanical hose-burst valves which are operative during lifting and lowering the platform. The platform will stop immediately if a hose bursts, protecting operator and goods alike.

## Load centres

Increased load centres mean the rated capacity of the tail lift is effective at a greater distance, providing more versatility over a range of load types. AHT offers the largest load centres available on the market.
